

# **AEROSPACE ENGINEERING STUDENT OUTCOMES**

## **University of Concepción**

- 1.** An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- 2.** An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- 3.** An ability to communicate effectively with a range of audiences.
- 4.** An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- 5.** An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- 6.** An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- 7.** An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.
- 8.** An ability to manage human, material, and financial resources.
