

PROGRAM EDUCATIONAL OBJECTIVES METALLURGICAL ENGINEERING

University of Concepción

The Program Educational Objectives (PEOs) refer to what graduates are expected to attain within a few years of graduation:

- 1.** Our graduates have a strong background in mathematics, sciences, engineering, and technology, demonstrating adaptability and autonomous learning skills for an ever-evolving professional field.
- 2.** Our graduates are committed to sustainable development, and engage in their profession creatively and innovatively to add value.
- 3.** Our graduates exercise leadership, work collaboratively across disciplines, with respect, empathy and tolerance.
- 4.** Our graduates demonstrate social responsibility, autonomy, and open-mindedness in the ethical practice of their profession.

University Campus, September 11th, 2024.
